A Dynamic Journey to the Self

Saturday June 08th – Monday June 10th 2019

This workshop addresses people who are interested in using breath and dance for self-exploration and unfolding the own potential.

In Holotropic Breathwork, accelerated breathing, evocative music, process-oriented bodywork and intuitive drawing facilitate access to the own inner wisdom. In a non-ordinary state of consciousness, participants can experience and transform topics of their own personal history or birth and actualize transpersonal interconnections. Inner spaces are opened in which healing can take place.

Dancing Meditation allow participants to express their individual experiences on the dancefloor. Guided by music and specific instructions, participants will be given space to feel the process of this weekend's journey also in their bodies and let it flow into their own dances.

The Yoga sessions are held before the breathwork and will support the process of grounding the participants and gently opening the body. As we move in consciousness, we feel centered and present in our bodies and become aware of the flow of our own life energy.

Date: Saturday, June 08th 13:00 o'clock until Monday, June 10th approx. at 18:00 o'clock

Participation Costs: € 230,- early bird special € 190,- until April 30th 2019
